

EASY SAMPLING

RAS Sophisticated sampling solutions

Gas and air Dryer

The **RAS ES-ND-001** is designed for practical use in sample conditioning systems where quick drying of gas or air is needed.

Special Features:

- Optimal drying capacity
- No stagnant spaces
- Material Stainless Steel 316 Ti
- Wall mounting
- Refillable drying material

Technical data

Part-no: ES-ND-001
Drying capacity: Dewpoint -40 to -72°C.
Dewpoint gas: up to 2°C.
Gas inlet temp.: max. 35°C.
Gas inlet press: max. 7 bar
Flow rate: up to 70 L/min.
Volume dryer: 0,58 L
Connections: ¼" NPT FM

Applications: Gas sensor/analyser calibration

Please contact HEGON Techniek for more information of the total delivery program.
